

Glucose

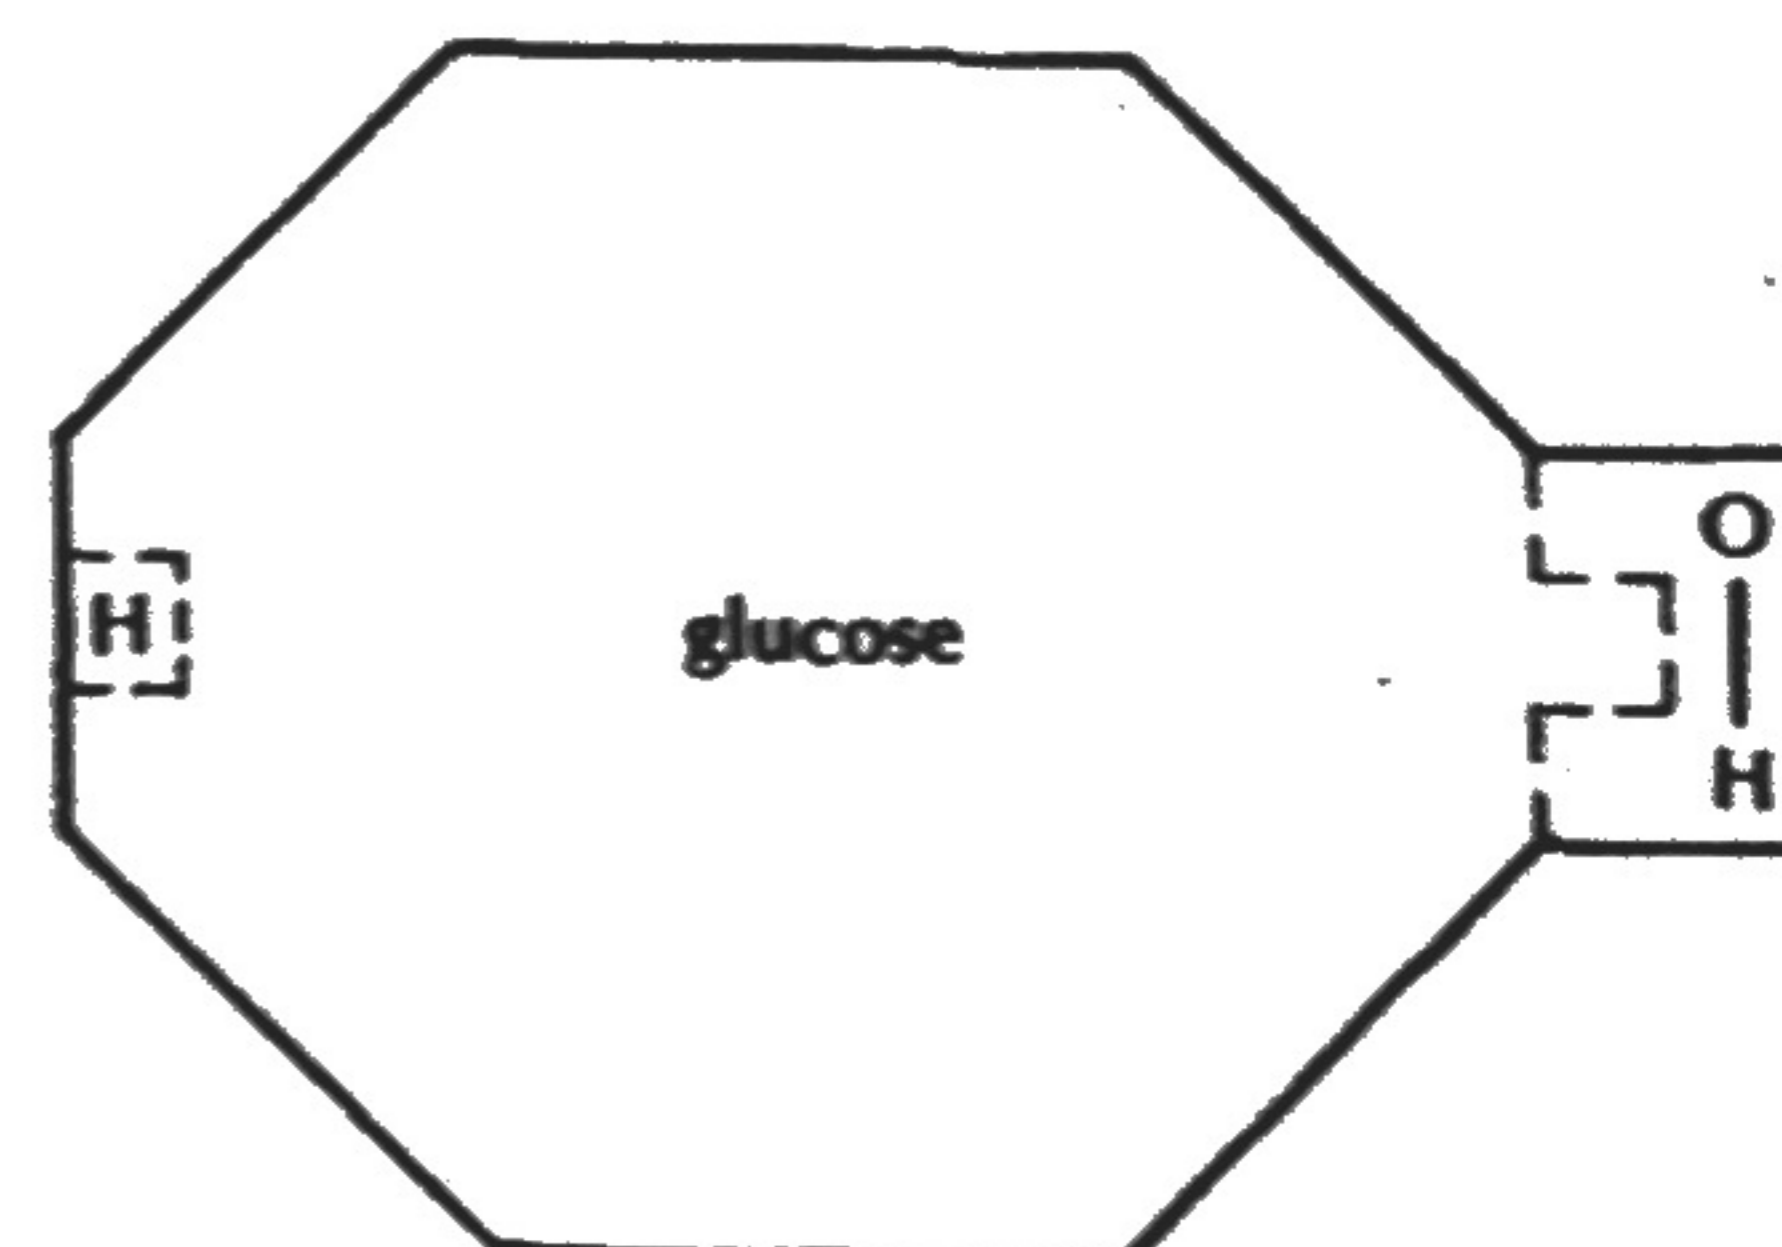

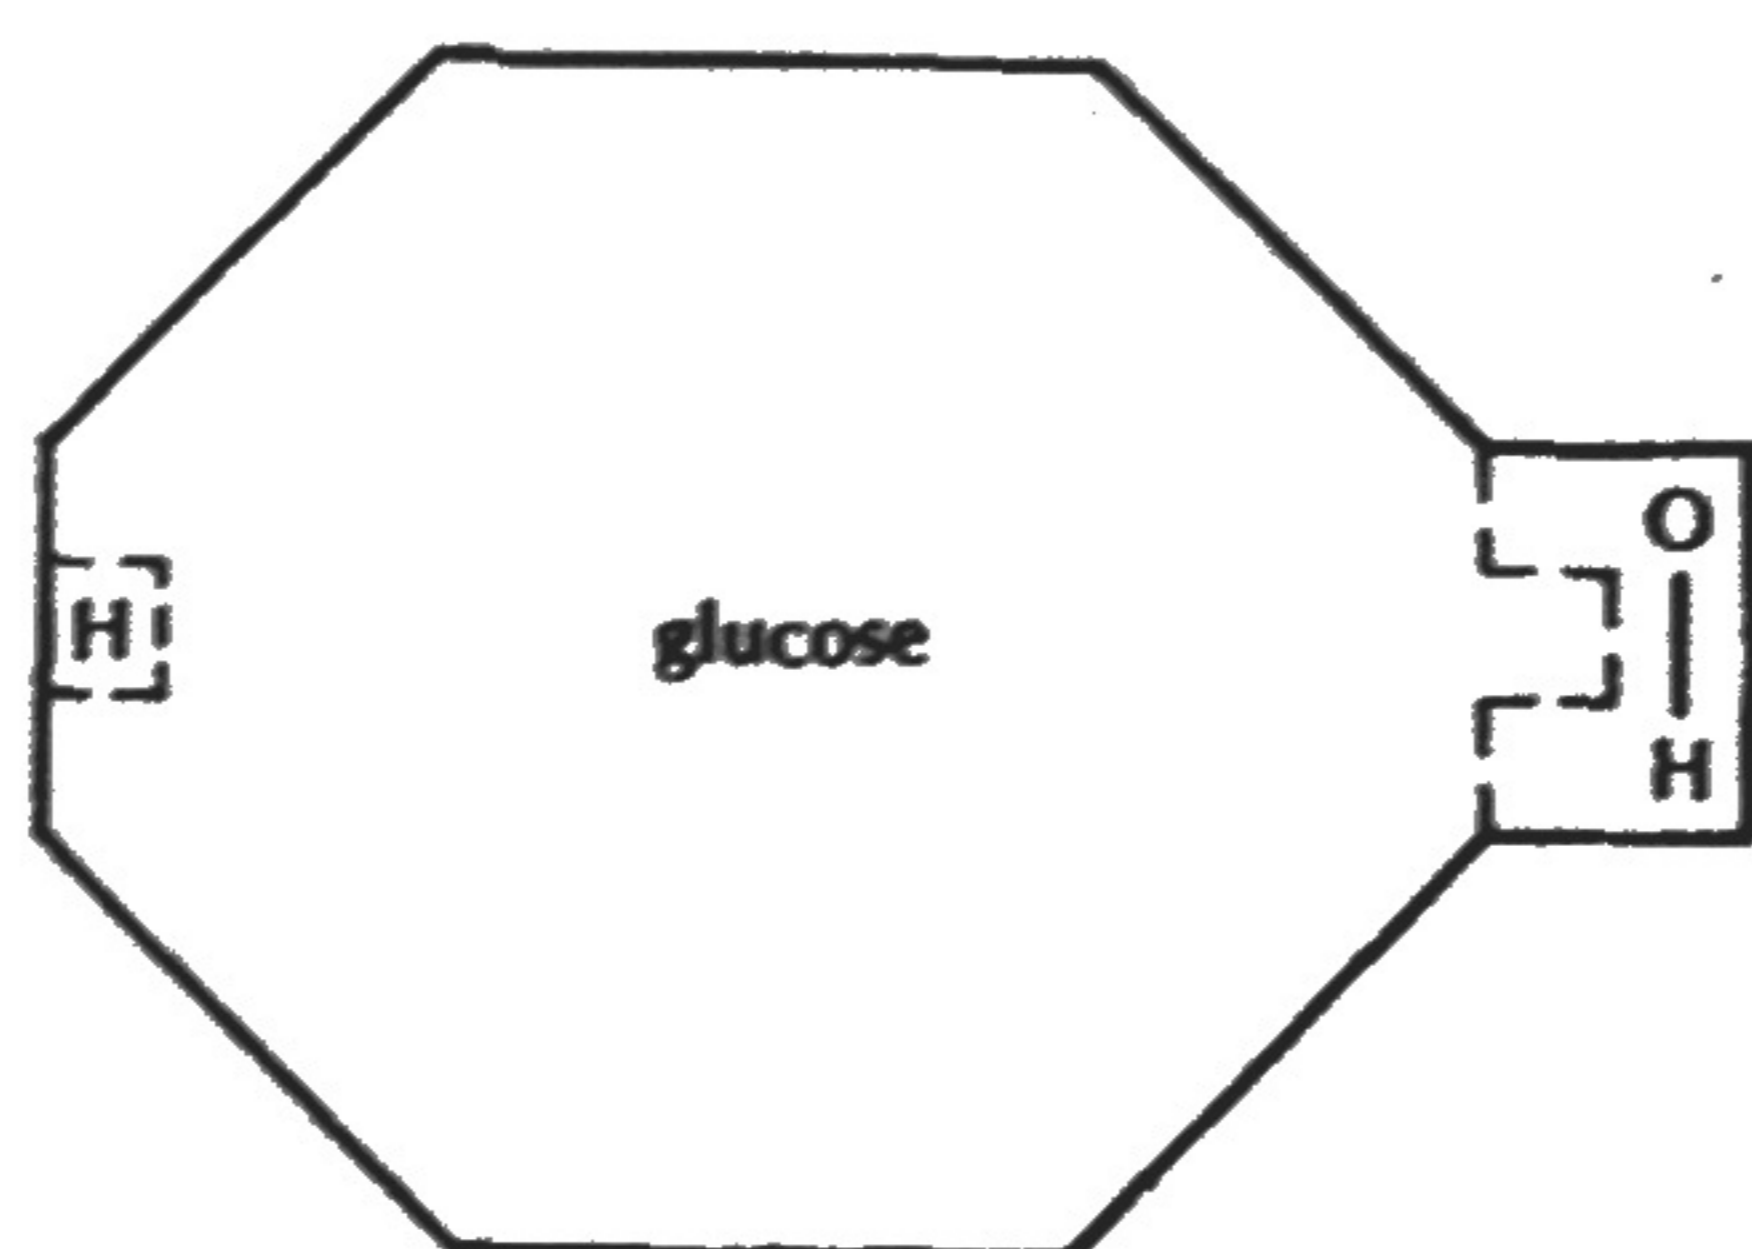

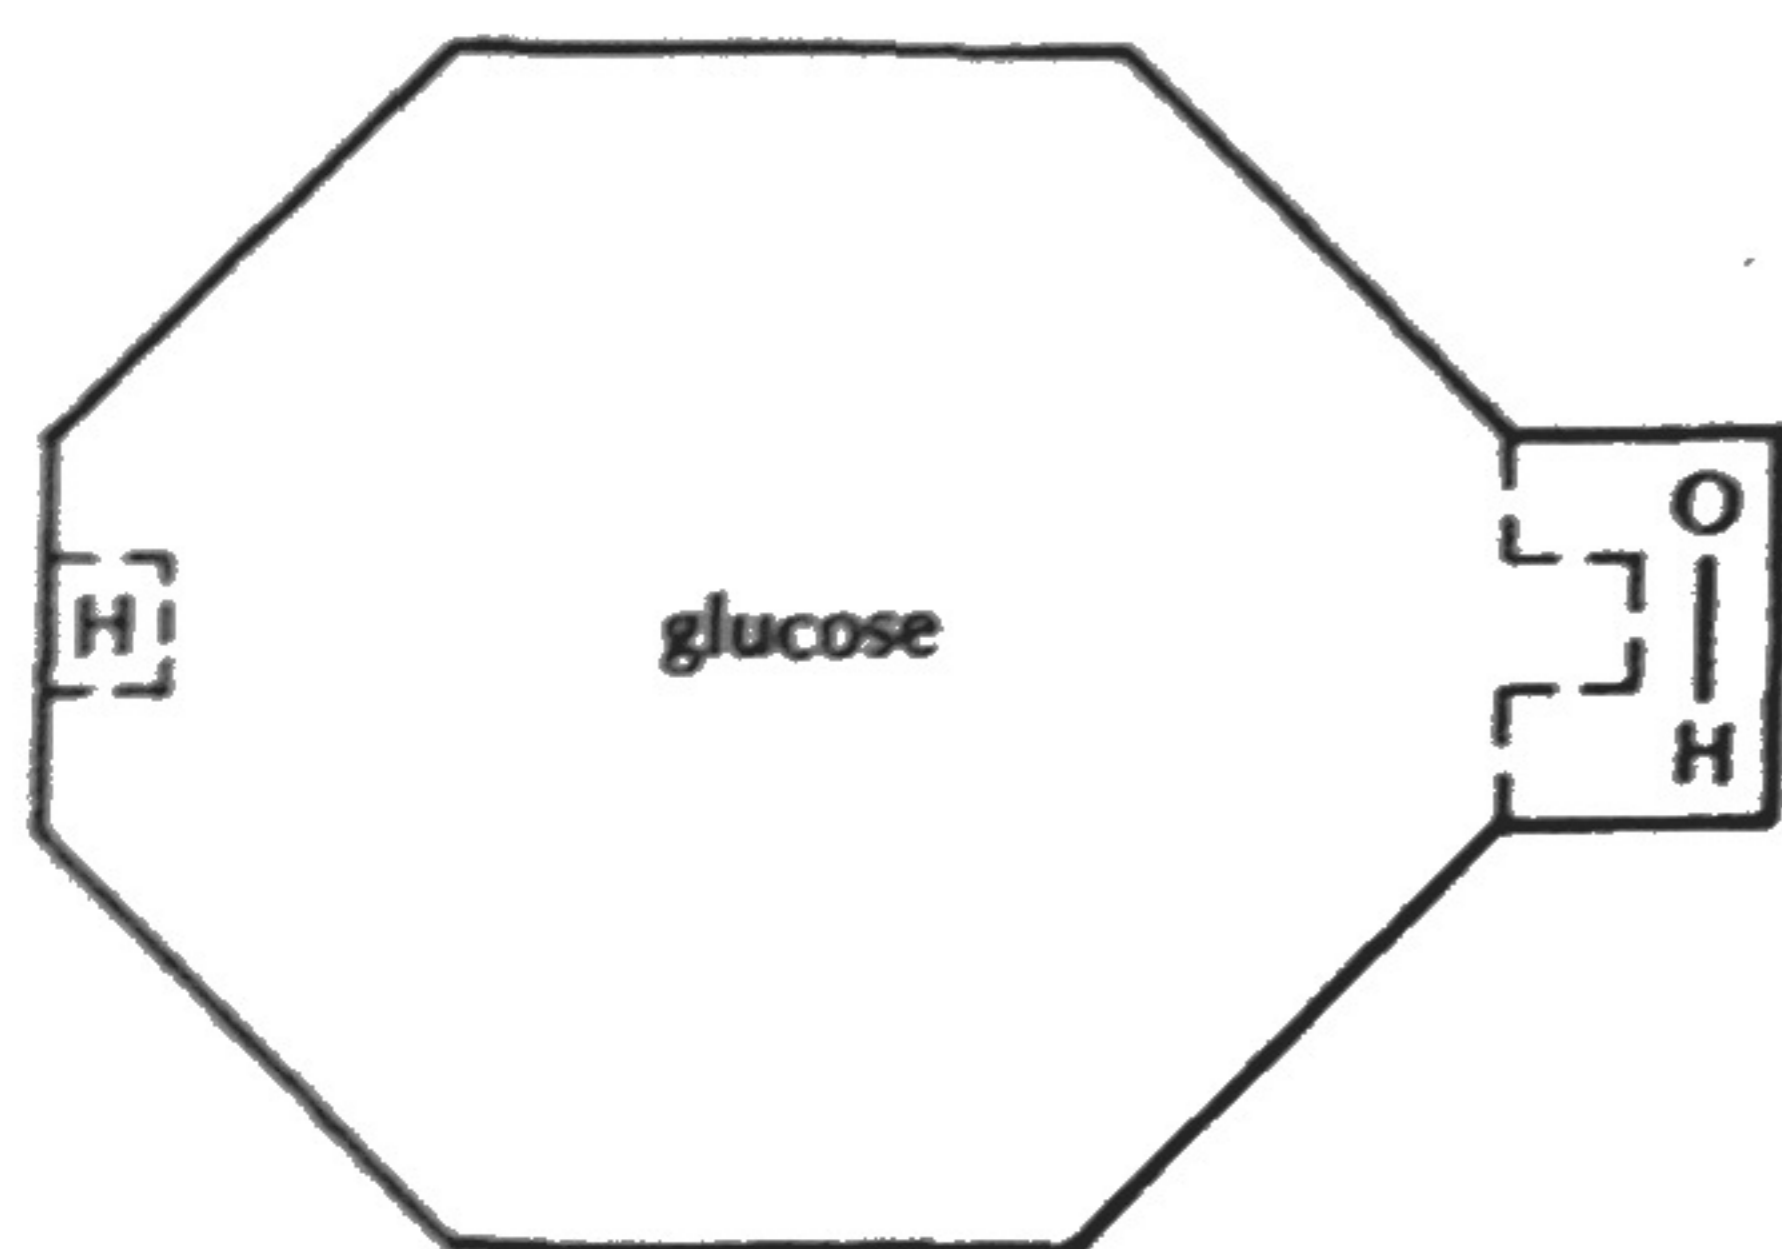

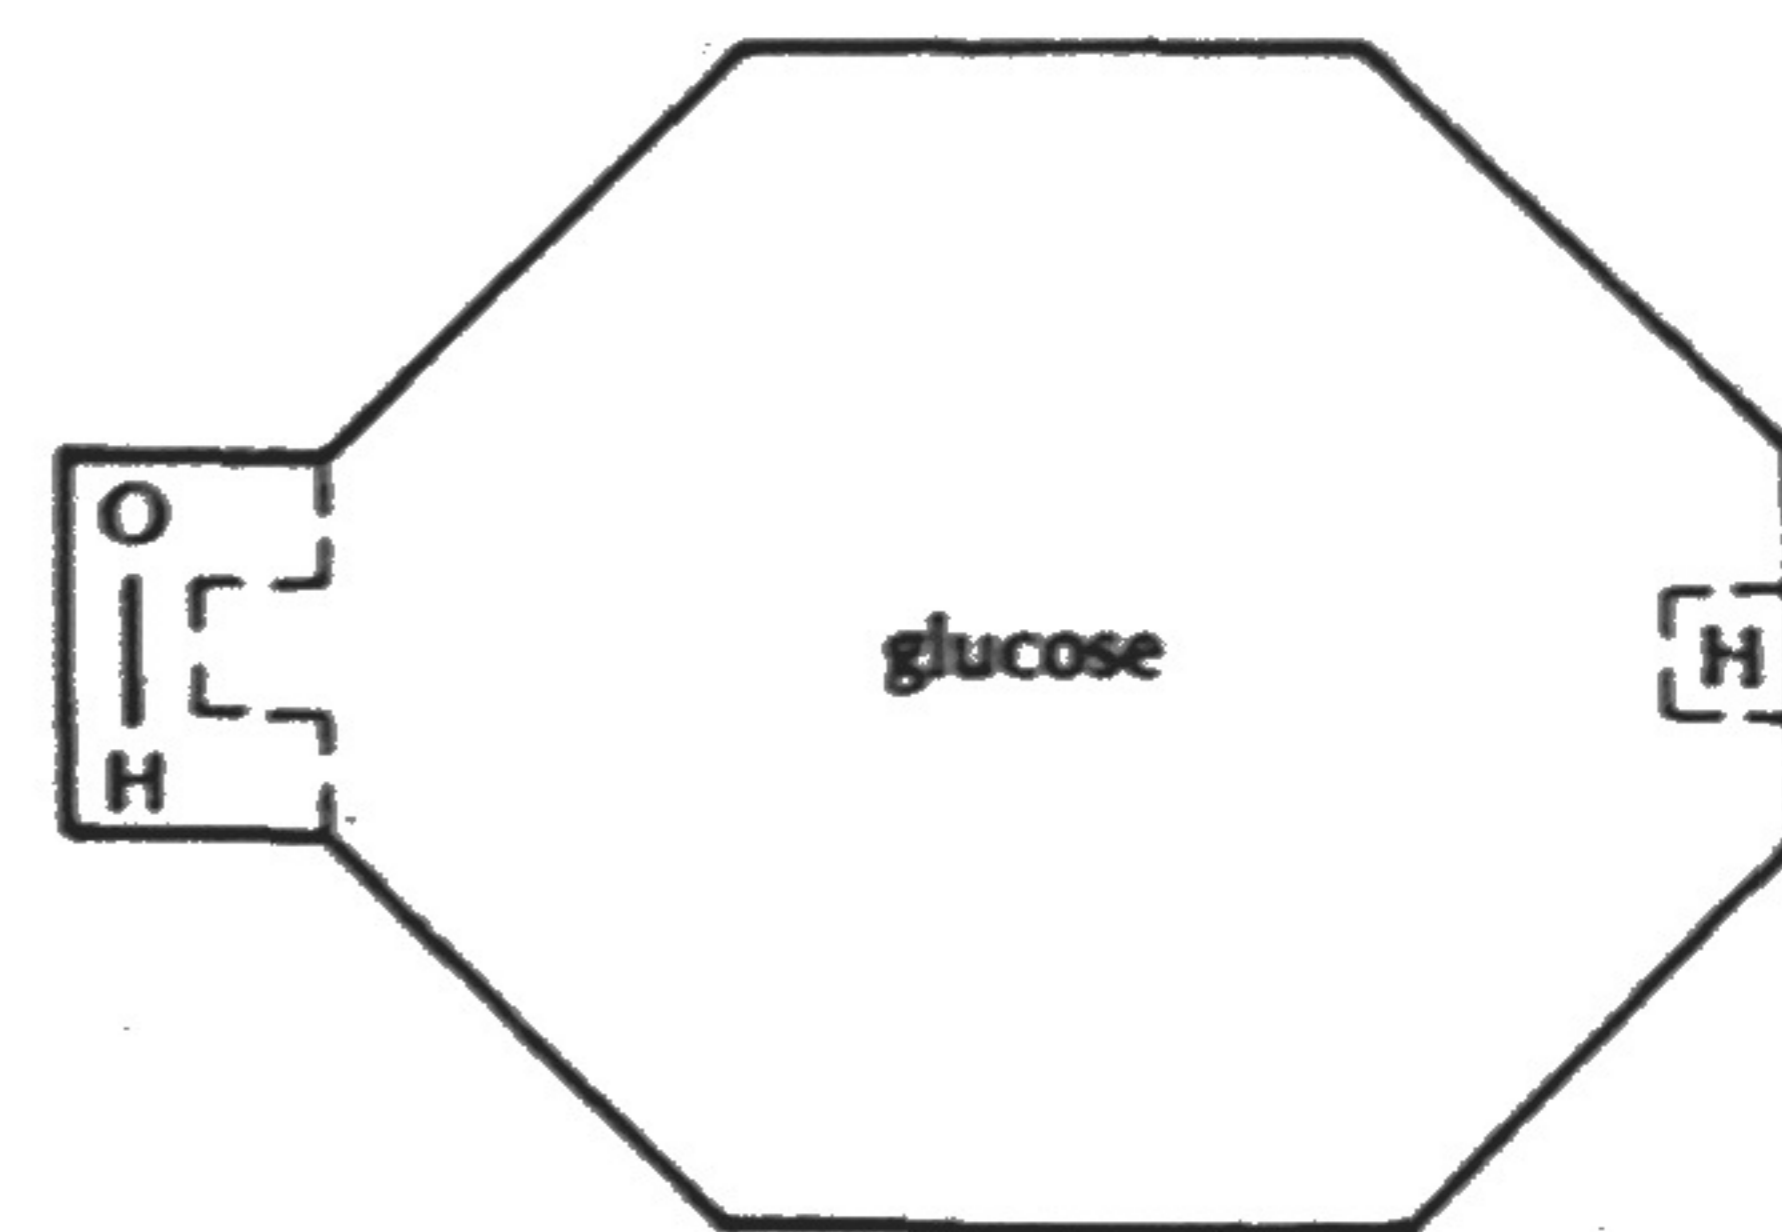

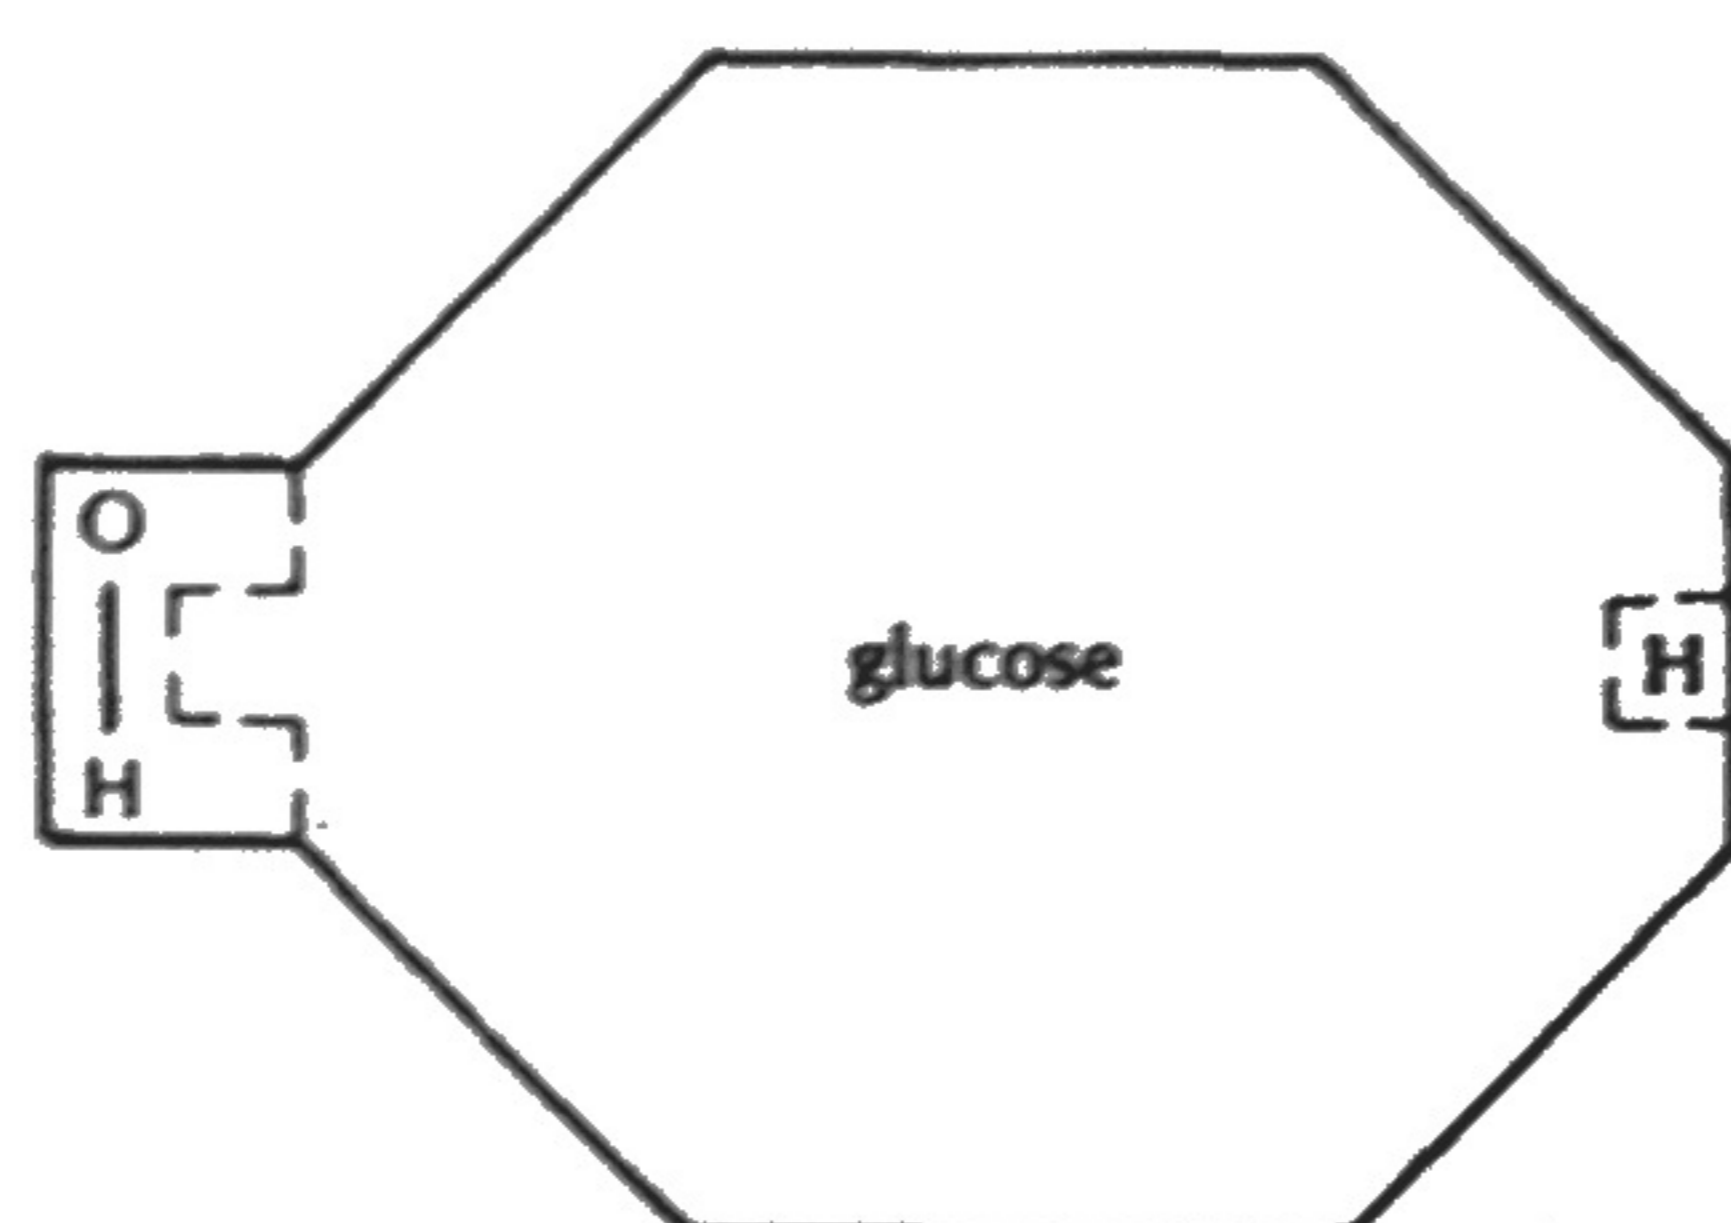

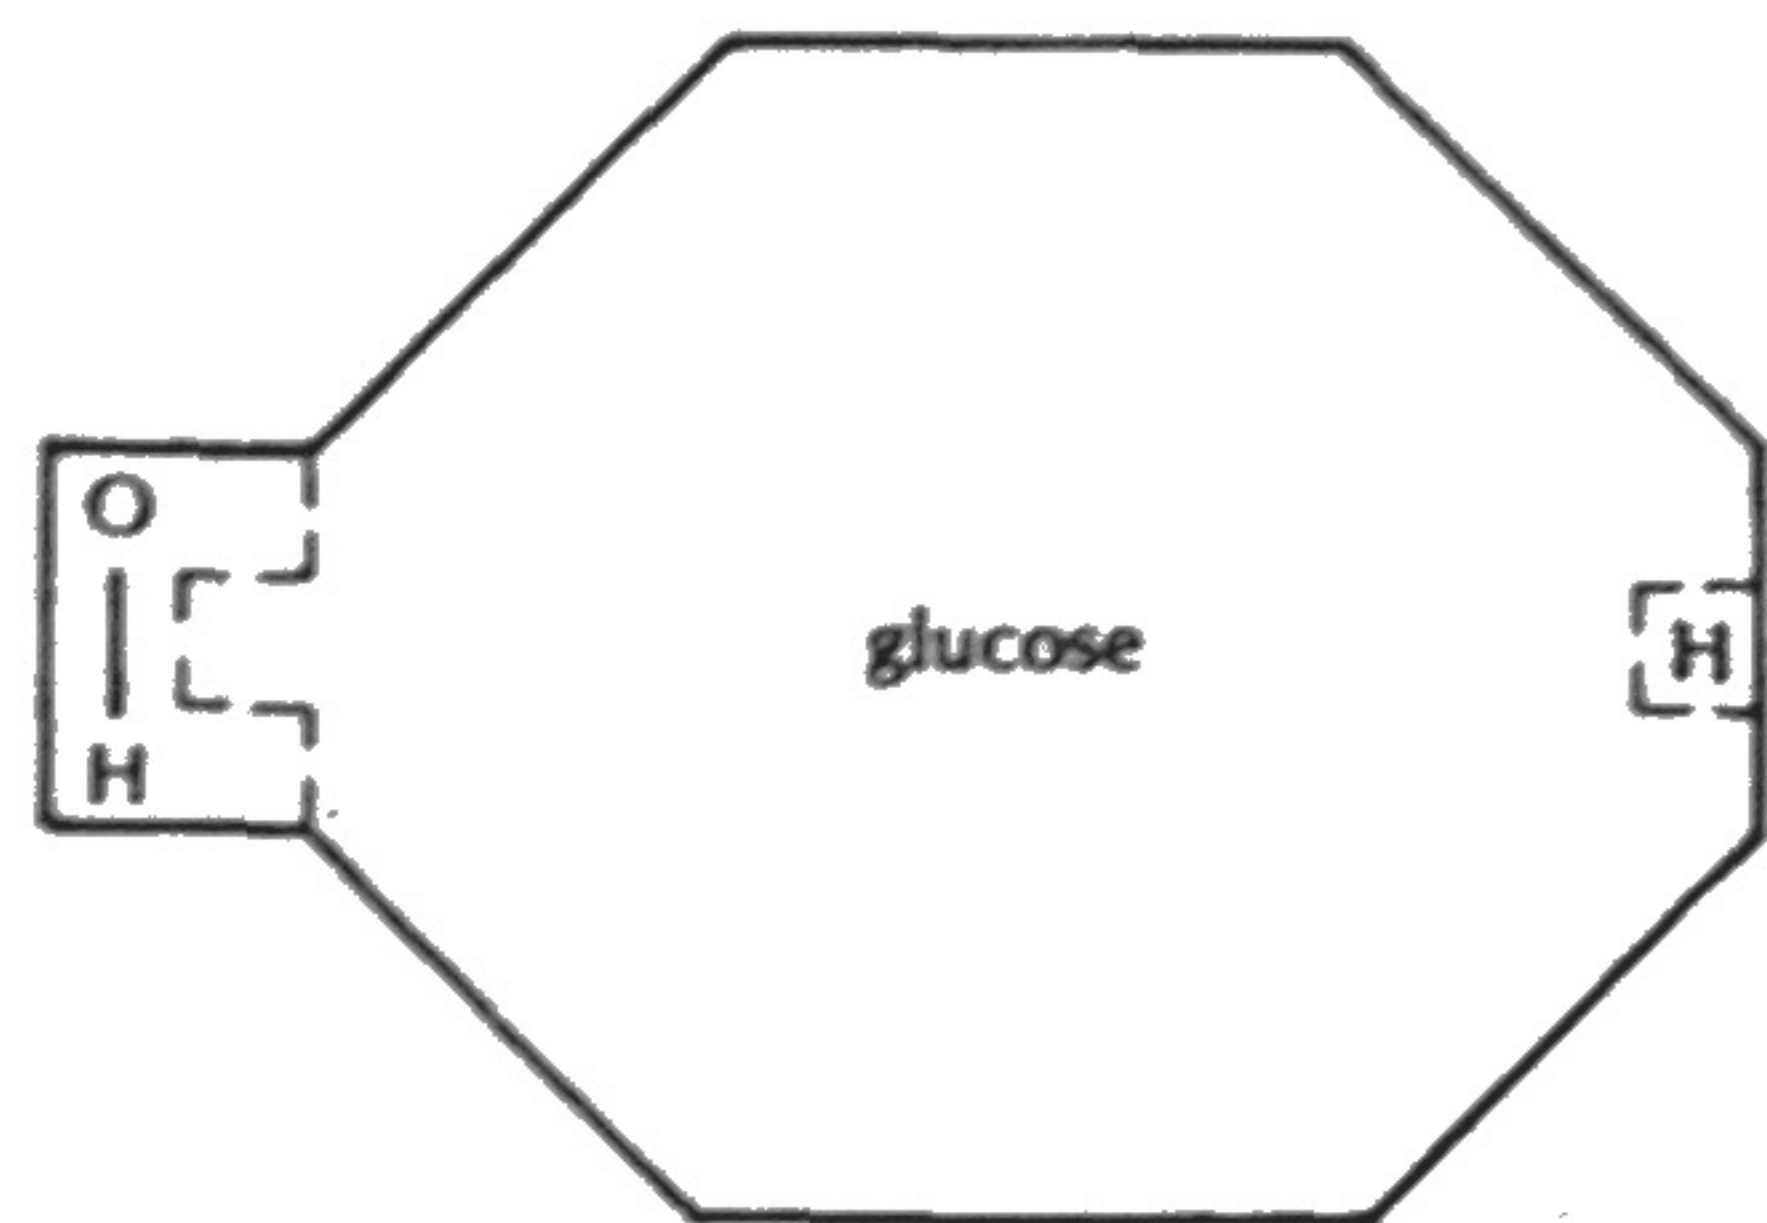

Fructose

Galactose

Models of Glucose Molecules

Hint: don't turn the words upside-down when you connect them! They will fit like a jig-saw puzzle when you are done. Choose the ones you need each time.

model of fructose

Only the end atoms of hydrogen and oxygen are shown in the models.

After you cut out the models, CAREFULLY follow the INSTRUCTIONS for the H and O-H parts of these models. DONT throw them away! You need them to make WATER: H_2O or HOH
