

Practice with Food Chains and Webs

Use the feeding relationships below to answer the following questions

Feeding Relationships

✓ **Barn Owl:** Eats mice, voles, and rabbits

✓ **Mice:** Eats seeds and insects

✓ **Vole:** eats seeds

✓ **Rabbits:** eats grass, leaves and roots

✓ **Crickets:** eats grass and leaves

✓ **Grasshopper:** eats grass

✓ **Pillbug:** eats fallen leaves

Oak tree, grass, and bushes: energy from the sun

1. Make a food chain out of the relationships above

Oak tree → pill bug → mice → barn owl

2. Color Code the feeding relationships!

- Green for the producers
- Orange or yellow for the 1st level consumers
- Red for 2nd level consumers
- Purple or Blue for 3rd level consumers

3. Make a food web out of ALL of the relationships on the next page
